## GCF Spin-Off

Math Skill  
Greatest  
Common  
Factors

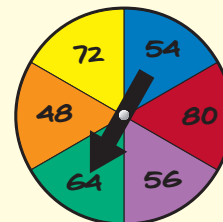

### ● GET READY!

**Players:** four

**Materials:** two spinners

### ● GET SET!

- Divide into teams of two players.
- One team labels the six equal sections of one spinner 6, 8, 12, 16, 18, and 24 as shown.
- The other team labels the six equal sections of another spinner 48, 54, 56, 64, 72, and 80 as shown.

### ● GO!

- One player from each team spins their spinner.
- The other player on each team tries to be the first to name the GCF of the two numbers.
- The first person to correctly name the GCF gets 5 points for their team.
- Players take turns spinning the spinners and naming the GCF.
- **Who Wins?** The first team to get 25 points wins.
