

## Reading Tip

Make connections with memorable events, places, or people in your life. The better the connection, the more likely you will remember.

### Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
  - Write an **A** if you **agree** with the statement.
  - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
  - If any of your answers changed, explain why.
  - Change any false statements into true statements.
  - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	<b>1</b> All plants have roots, stems, and leaves.	
	<b>2</b> A waxy covering slows the movement of water out of a plant.	
	<b>3</b> Some plants have special cells in which water travels from roots to leaves.	
	<b>4</b> All daisies are members of the same species.	
	<b>5</b> Some mosses are adapted for desert environments.	
	<b>6</b> Nonvascular plants often are the first to grow in disturbed or damaged environments.	
	<b>7</b> Coal is the fossil remains of seedless plants.	
	<b>8</b> Leaves, stems, and roots are organs of vascular plants.	
	<b>9</b> All evergreens are conifers, such as pines and spruces.	
	<b>10</b> Flowering plants are the most numerous plants on Earth.
