

## Reading Tip

As you read, check the predictions you made to see if they were correct.

### Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
  - Write an **A** if you **agree** with the statement.
  - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
  - If any of your answers changed, explain why.
  - Change any false statements into true statements.
  - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	<b>1</b> The exchange of oxygen and carbon dioxide happens by diffusion.	
	<b>2</b> Breathing is the same as respiration.	
	<b>3</b> Vocal sounds are made by the trachea.	
	<b>4</b> Air enters and leaves your body when you diaphragm contracts and relaxes.	
	<b>5</b> Respiratory problems have no effect on other body systems.	
	<b>6</b> Your skin is part of your excretory system.	
	<b>7</b> Kidneys filter wastes from your blood.	
	<b>8</b> It takes about two hours for all of your blood to move through your kidneys.	
	<b>9</b> Most urinary infections begin in the bladder.	
	<b>10</b> Your circulatory system does not connect with your excretory system.
