

Reading Tip

Graphic organizers such as the Cause-Effect organizer help you organize what you are reading so you can remember it later.

Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
 - Write an **A** if you **agree** with the statement.
 - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
 - If any of your answers changed, explain why.
 - Change any false statements into true statements.
 - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	1 The nervous system includes nerve cells, the brain, and the spinal cord.	
	2 A neuron only moves messages from the brain to the body.	
	3 Motor neurons receive messages from muscles.	
	4 The peripheral nervous system connects the body to the central nervous system.	
	5 Damage to the left side of your brain affects the function of the right side of your body.	
	6 Optic nerves connect the ears and brain.	
	7 Farsightedness is the condition when distant objects are more in focus than near objects.	
	8 You can identify most foods using only your sense of taste.	
	9 Internal organs have sensory receptors.
