

Reading Tip

Test yourself. Create questions and then read to find answers to your own questions.

Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
 - Write an **A** if you **agree** with the statement.
 - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
 - If any of your answers changed, explain why.
 - Change any false statements into true statements.
 - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	1 Plateaus are flat, raised landforms made of nearly horizontal rocks with a steep-sloped boundary.	
	2 Folded mountains are formed by tremendous forces inside Earth squeezing horizontal rock layers.	
	3 Volcanic mountains are cone-shaped structures that formed when molten rock rose to the surface.	
	4 Latitude lines run north to south.	
	5 Latitude lines are also called meridians.	
	6 A map scale is used to measure the weight of heavy maps.	
	7 A map legend is a historic map.	
	8 Contour lines run up and down on hillsides.	
	9 Contour intervals indicate horizontal distance on topographic maps.	
	10 Geologic cross sections can be used to visualize the slope of rock layers beneath Earth's surface.
