

Academic Activity Chapter 6

Materials Advantages and Disadvantages

Go online and find four structures of differing material from different time periods. Only one may be modern, and at least one should be ancient.

For each structure, write a brief paragraph answering the following questions:

- What is the majority material?
- What are that material's strengths or advantages?
- What are that material's disadvantages?
- How was the material transported to the site?
- Do we have a better material to use today? Why or why not?

1. Describe the first structure.

2. Describe the second structure.

3. Describe the third structure.

4. Describe the fourth structure.
