3. The analysis is accurate and thoughtful.	_____	_____	_____
<b>Total</b>	_____	_____	_____

**RUBRIC**

# Analyzing the Data

	<b>Rating</b>
The student makes an excellent analysis and shows great insight. Math is used correctly in the analysis.	
The student makes use of all the data in the analysis and the student correctly uses the appropriate mathematical procedures in analyzing it.	
The analysis does not make use of all the data. The statistical procedures used are not appropriate or they are not accurately carried out.	
The work is very poorly done or has not been completed.
